HOW TO NAME YOUR PUPPY

It is customary to register purebred dogs using the name of the kennel from which the puppy was purchased as the first part of the pup's official American Kennel Club (AKC) registered name. In addition, some breeders employ a system of naming by theme so that littermates will be easily recognized as such when pedigree information is not furnished. Sometimes a litter is co-bred—i. e. it is a product of a co-owned or leased bitch—and the pups from these litters frequently will carry two kennel names.

The theme for this litter is "KISS." Attached is a list of names that we found correspond to this theme. You may use one of these, or your own imagination. Keep in mind that the AKC counts spaces and punctuation in the number of letters of the name. If you like a long name, it is only \$10.00 more to increase the length of the registered name.

Please note: Although I like "call names" that are extracted from the registered name, if you have already decided to call your puppy by a name that does not fit this scheme -- that's fine. More often than not a dog's "call name" bears little or no resemblance to its registered name. However, it is often possible to work backwards from the call name to make it fit with the registered name.

Please let me know as soon as you have decided upon a name so that I may fill out your pup's registration papers as soon as possible. It is a good idea also to have a second choice name in case someone else has already used your first choice. First come, first served!

Sire: Can CH Ramchaine Magnetic – "Nicolaas"

Dam: Beau Geste Geranium Kiss - "Geri"
